Summary

Results-driven Java Developer specializing in building scalable backend systems with Spring Boot and Hibernate. Experienced in developing full-stack applications with RESTful APIs and optimizing database performance. Proven problem-solver with a strong foundation in algorithms, demonstrated by a top 7% global LeetCode ranking.

Skills

Languages & Frameworks: Java, Spring Boot, Hibernate

Databases: SQL, MySQL, H2

Tools & Technologies: Docker, Maven, Git, REST APIs, JUnit, Lombok, IntelliJ IDEA

Concepts: Object-Oriented Programming (OOP), RESTful API Design, Containerization

Projects

SpringMart E-Commerce Platform | *Java, Spring Boot, React, H2*

2025

- Designed and implemented a suite of RESTful APIs using Spring Boot to support full CRUD operations for product and image management.
- Utilized Spring Data JPA with an H2 file-based database for efficient data persistence, managing both product records and binary image storage.
- Accelerated frontend development using AI-assisted tools to build a responsive React user interface, creating a cohesive full-stack application.

Student Management System | *Java, MySQL, JDBC, Maven*

2025

- Developed a comprehensive console application using Java and JDBC for student record management, implementing full CRUD functionality and robust input validation.
- Engineered an advanced reporting module with complex SQL queries to generate key analytics on grade distribution and top-performer leaderboards.
- Migrated data storage from a file-based system to a MySQL database, significantly improving data persistence, query performance, and overall scalability.

Education

B.Tech in Computer Science & Engineering

2021 – 2025

Pailan College of Management & Technology (MAKAUT), Kolkata, India

CGPA: 8.3 / 10

- **Relevant Coursework:** Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advanced Data Structures and Algorithms, Information Retrieval, Image Processing

Achievements

- Earned the **LeetCode 50 Days Badge (2024)** – Ranked among the **top 6.9% globally**, demonstrating consistency and problem-solving skills
- Solved **130+ Data Structures & Algorithms problems** on LeetCode, with proficiency in **Dynamic Programming, Trie, DFS, BFS, Arrays, and Sorting**
