Summary

Recent Computer Science graduate focused on Java backend development with Spring Boot and Hibernate. Experienced in API design, database operations, and leveraging AI tools to build end-to-end applications.

Skills

Languages & Frameworks: Java, Spring Boot, Hibernate (JPA)

Databases & Testing: MySQL, H2, JUnit 5, Mockito

Systems & DevOps Concepts: System Design, Redis, Kafka, RabbitMQ, Kubernetes, GitHub Actions, OpenAPI, AWS

Tools & Productivity: Git, Docker, Postman, Supabase, Firebase, Vercel, Netlify, GitHub Copilot, Antigravity, Codex

Projects

SpringMart | *Java, Spring Boot, Spring Data JPA, REST APIs, H2, Docker* 2025

- Engineered a Spring Boot REST API featuring pagination, request validation, and keyword-based product search.
- Designed JPA entity mappings and built custom image upload handlers to persist product assets.
- Containerized backend services using Docker and integrated them with a web frontend client.

Student Management System | *Java, MySQL, JDBC, Maven* 2025

- Developed a standalone Java app using a layered architecture to decouple business logic from database operations.
- Engineered database interactions via JDBC, implementing transactional safety and input validation.
- Wrote advanced SQL queries to analyze grade distribution and generate student performance reports.

Education

B.Tech in Computer Science & Engineering 2021 – 2025

Pailan College of Management & Technology, Kolkata

CGPA: 8.3 / 10

- Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Additional Projects & Achievements

- Developed **Shreyan's Arc**, an interactive DSA roadmap guiding users through core problem-solving patterns in a structured sequence.
- Built **J-Void**, a Java-based DSA practice platform integrating with roadmaps and LeetCode links for focused problem-solving.
- Designed and deployed **WealthWise**, a custom website for a financial advisor to showcase services and establish an online presence.
- Built **wrkout**, a workout tracker designed to structure training and track workout progress for gym-goers.
- LeetCode 50 Days Badge (2024): Awarded to the top 6.9% globally for consistent daily problem-solving.
