Summary

Backend Developer focused on Java and Spring Boot with strong fundamentals in APIs, databases, and backend application development. Ranked in the top 6.9% globally on LeetCode for consistent coding practice.

Skills

Backend & Frameworks: Java, Spring Boot, Hibernate / JPA

Databases & Infrastructure: MySQL, Docker, JUnit 5

Familiar With: AWS, GitHub Actions, Redis, Kafka, OpenAPI

Projects

SpringMart | *Java, Spring Boot, Spring Data JPA, REST APIs, Docker*

- Built a Spring Boot REST API for an e-commerce platform with pagination, validation, and product search features.
- Started development with an in-memory H2 database before integrating persistent relational storage using Spring Data JPA.
- Designed relational entity mappings using Spring Data JPA and implemented backend handling for product image uploads.
- Containerized the backend using Docker and integrated it with a frontend client developed using AI-assisted frontend workflows to deliver a functional full-stack application.

Student Management System | *Java, MySQL, JDBC*

- Built a layered Java application integrated with MySQL to manage student records and academic data.
- Implemented validated CRUD operations using JDBC for direct database interaction and SQL execution.
- Created reporting features with custom SQL queries to analyze grade distributions and ranking performance.

Education

B.Tech in Computer Science & Engineering

Pailan College of Management & Technology, Kolkata

2021 – 2025

CGPA: 8.3 / 10

- Relevant Coursework:** Object-Oriented Programming, Database Management Systems, Data Structures & Algorithms, Operating Systems, Computer Networks

Achievements

- LeetCode 50 Days Badge (2024):** Ranked in the top 6.9% globally for consistent problem-solving.
- Solved 130+ LeetCode problems and built a custom DSA roadmap application to organize pattern-based practice.
- Built and deployed a portfolio website for a financial advisor to strengthen online presence and support client outreach.
- Built and consistently used a custom workout tracking application to log and monitor gym progress.
